

**Empowering Halal Integrity.
Digitally.**

What is HIAS?

HIAS is a cloud-native SaaS platform built to simplify and automate every aspect of Halal compliance, food-safety management, and audit readiness. **Designed by Halal auditors, food-safety experts,** and software engineers, HIAS replaces fragmented spreadsheets and checklists with one integrated system - so you can focus on growing your business, not chasing paperwork.

Core Pillars

Compliance

All your HAS, FSMS/QMS, training logs and non-conformance workflows in one central repository, with auto-reminders and role-based access.

Traceability

Unbroken chain of evidence from raw materials through production, cold chain, and distribution - backed by IoT sensors and blockchain encryption.

Intelligence

AI-driven risk scoring, dynamic dashboards, and trend analytics to pinpoint bottlenecks, predict audit risks, and optimize operations.

Key Features

- Integrated Audit & Checklists
- Certificate & Supplier Risk Management
- Cold Chain Monitoring & Alerts
- Blockchain-Secured Data Vault
- AI-Powered Reminders & Expiry Warnings
- Real-Time Dashboards & Custom Reports
- Mobile App for On-Floor Inspections

Benefits at a Glance

Audit-Ready in Seconds

90% Time Savings

Automate manual tasks and avoid last-minute audit rush.

Cost-Effective

No hardware investment; transparent, subscription-based pricing.

Mitigate Risk

Never miss a certificate renewal or temperature excursion.

Scalable & Secure

Cloud deployment with 256-bit SSL post-quantum blockchain.

Who Uses HIAS?

- Food & Beverage
- Pharmaceuticals
- Cosmetics
- Logistics & Warehousing
- OEM & Contract Manufacturers
- Restaurant Outlet Chains
- Retail Chain Stores
- Hotels & Hospitality
